Woody Wagon with Tree
Courtesy of Gare, Inc.

Supplies
# 5339 Woody Wagon with Tree
SC-2609 Black Top Surface Coat
NTG-9528 Sandalwood Pottery Glaze
NTG-9539 Lobster Fest Pottery Glaze
NTG-9541 Jolly Green Pottery Glaze
9216 Ebony Matte Glaze
FS-2314 Black Lab
FS-2366 Chocolate Moose
6565 Long Shader Brush
6672 Round Brush #8
6674 Round Brush #4

Directions

Step 1: Using a #8 round brush, apply 2 coats of Black Top Surface Coat to everything that will be red and green. Let dry.

Step 2: Apply 3 coats of Ebony Matte Glaze on the roof, tires (not hubcaps), lights in back, sideboards and bottom of wagon.

Step 3: Apply 3 coats of Lobster Fest on top of the Black Top Surface Coat to everything that is red.

Step 4: Apply 2 coats of Jolly Green on the Tree, but not the trunk. For the tree trunk, paint 2 coats of Chocolate Moose.

Step 5: Using a #4 round brush, paint 3 coats of Sandalwood for the wood paneling on all the doors.

Step 6: Paint 3-4 coats of Black Lab on all the windows.

Step 7: Clean out the Black Lab in the hubcaps, then paint 3 coats of Tin Man on the hubcaps. Then paint 3 coats of Tin Man to the front and back bumpers, the grill, around the front headlights and all the door handles.

Step 8: Using a shader brush and Black Lab, shade the door panels, bumpers, rims and grill (see photo).

Step 9: Since the Woody was painted primarily with surface coat, matte glaze and pottery glazes – YOU DO NOT HAVE TO APPLY CLEAR GLAZE BEFORE FIRING. Doing so may change your expected color results.

Step 10: Fire to cone 06.
